# Independent Laboratory Testing

**Chart Description:**  
Independent laboratory testing data are depicted as averages across multiple studies. Includes both in-vitro and in-vivo studies.

## Proprietary Microburst Cap Technology:

Eliminates shelf-life concerns and ensures maximum potency at point of use

## Case Study

# 64%

In a University of Arizona study, EVS spent 64% less time in rooms while achieving 300 times (30,000%) better disinfection.
